

In the Matter of)
Revision of the Commission's Rules) CC Docket No. 94-102
to Ensure Compatibility with Enhanced)
E911 Emergency Calling Systems)
January 15, 2002)

This report and waiver request is filed pursuant to the Commission's Fourth Report and Order in CC Docket No. 94-102, on behalf of Iowa Wireless Services and the Iowa Wireless Partners listed in Attachment A (Iowa Wireless). Iowa Wireless filed its last report on October 12, 2001. Since that time Iowa Wireless has requested information from Nokia, our network vendor regarding the availability of software that will provide TTY access to E-911. At this time, Nokia has not provided a firm date the compliant TTY software will be available. Iowa Wireless and its partners are small PCS carriers providing service in rural Iowa. The development and manufacture of software is beyond the control of Iowa Wireless. For this reason, Iowa Wireless seeks a waiver of the December 31, 2001 deadline for obtaining all software upgrades and equipment necessary to make its system capable of transmitting 911 calls from TTY devices.

Iowa wireless remains committed to working with our vendor Nokia and the PSAPs in Iowa to implement TTY capability in compliance with the Commission's requirements and if possible by the June 30, 2002 deadline.
